## Client Testimonials

### From Internet Review Sites:

While we were on vacation, we were very pleased with the services provided by Sherrie. Our dogs, Sadie & Ginny, absolutely loved her. She left daily notes about what was done during each visit & she texted us with updates and pictures. We loved the service & communication! Thanks Sherrie!

We have used Prince William's Paws 4 Claws for the last 8 years. When we first started we had 2 rescue dogs who have since passed on and have been replaced by another 2 rescue dogs. All 4 dogs just love this provider. We have neighbors, who after talking to us, use this service and have for a number of years. This is a service that cares for the pets as well as respects your home. As long as we have dogs, we will continue to PW Paws 4 Claws.

I use Paws for Claws every time I travel. Sherry is always reliable, timely, thorough, and loves the animals she cares for. Will administer medicine if needed. She always leaves the area where the cat pans are neat and tidy, sweeps up when she doesn't really have to. She also texts me on her first day of service to let me know everything is ok. Would highly recommend to anyone needing a pet sitter!

Parrots are probably the most high-maintenance pets around. She had to come in twice a day for a week, early in the morning and again at night, to uncover or cover the two bird cages, open or close the blinds, remove the soiled newspaper from the cages, clean and refill the water bowls, and refresh the food bowls. In addition, she had a tank of tropical fish to feed. She also takes in the newspapers, mail and any deliveries. She turns on the TV or radio during the day to provide entertainment for the birds. If I ask, she will water the houseplants.

Member Comments:

Everything was fine when I got home. The birds were not stressed out in the least. She had taken the time to whistle and talk to them, and spritz them with water from time to time. She left pages of notes indicating what time she came in, what the weather was like, how the birds were, and the tasks she did. I had left a note expressing concern that ants might show up unexpectedly one day, since they usually do in the spring. I saw that she had gotten out the broom and was careful to sweep up any bird seed that the parrots may have flung out of the cages, even though I had not asked her to

do that.

I have no idea if the cost is considered reasonable or not, since I have never had to hire anyone to bird-sit before. However, coming in every twelve hours for a week, day and night, weekends and on a holiday, was not something I would want to ask a neighbor or even a relative to do. I feel much better entrusting this job to a professional, and that is exactly what she is. The peace of mind is worth every penny.

Paws 4 Claws has provided both dogwalking and vacation service for our family.

Member Comments:

Sherrie loved our dogs like they were her own.

Checked on house and dogs, brought in mail, brings up trash cans as needed. Always leaves a note of how the visits went and activities during the visit, as well as any concerns noted...ie dog limping

Member Comments:

Sherrie is fantastic, I have used her service for years for my own dogs and frequently for foster pups in my care as well. My dogs adore her! I feel comfortable leaving them in her care when I have to leave town..

I have been using Prince William's Paws 4 Claws Petsitter for over 8 years. I am a regular client, and most recently Sherrie took care of my very high maintenance dog and cat for 10 days while I was out of the country. She visited with them three times a day, walked my dog, fed both animals, administered medication to both animals, watered the lawn, took in my mail and even notified my emergency contact when the air conditioning broke down.

Member Comments:

I know that I can leave the country for 10 days with my animals in Sherrie's care because I have absolute trust in her. She loves all animals, provides excellent care for them and has not ever let me down. My animals both have health problems and require regular medication. Again, I never have a doubt that they will be well cared for in Sherrie's care. She can handle large and small animals - I have a 110lb high energy lab mix, and she manages him just fine.

Sherrie has been providing midday and holiday dog walking services to our pack of four big dogs for the past 6 years. She is more than just a dog walker - she is our dog nanny. I say this because she has

always cared for our dogs like we have. She is ALWAYS flexible if we need extra visits or special care. For example, she has taken our dogs to the vet during the day a few times when I couldn't get out of work. She walks all four dogs at one time - my husband and I can't even do that. She has our dogs on a routine and they love it. They wait by the door around 1 pm everyday for Ms Sherrie to come for her visit. She walks them regardless of the weather - except if it's thundering or pouring rain - they won't go outside in the rain. On those days, she takes them out to potty and then brings them inside for a little playtime and occasionally a doggie massage. She leaves "report cards" after each visit to let us know how everything went. She texts pictures when they do something funny (or bad- like chewing Mom's shoes). She is professional and runs her business like a business. I like the convenience of the monthly billing and paying via quickbooks online. She is wonderful and loves our dogs like they were her own. They Love Sherrie - we love Sherrie!! I would HIGHLY recommend Prince William Pet Sitter to anyone.
